Western blot analysis of MGC3 protein expression. The blot shows four lanes (1, 2, 3, 4) with molecular weight markers on the left (250-kd, 150-kd, 100-kd, 75-kd, 50-kd, 37-kd, 25-kd, 15-kd). An arrow points to a band at approximately 120-kd, labeled '120-kd MGC3 protein'. Lane 1 shows a strong band at 120-kd. Lane 2 shows a very faint band. Lane 3 shows a strong band. Lane 4 shows a strong band.
